Description

Droplet barrier is an accessory designed for Metos Nova furniture, which can be used to make Metos Nova self-service furniture to a service model. The customer-facing, transparent cover fits elegantly into the Metos Nova furniture and offers the customer unobstructed visibility of the food. The cover is made of transparent, strong, food-approved PETG material that is fully recyclable.

The droplet barrier fits all Metos Nova glass shelving units and can be installed and removed without tools.
